## Submit your assignment soon

Even though your assignment is due on Oct 4, 11:59 PM PDT, try to submit it 1 or 2 days early if you can. Submitting early gives you a better chance of getting the peer reviews you need in time.

## Instructions

## My submission

Spotlighting is a technique for showing discrete thresholds

based on the values of a measure.

You are tasked with creating a table showing total sales by product category, broken down by Year and Month. To complete this task, you will need to create a new calculation titled "Sales Spotlight" that categorizes your total sales into "Good" if total sales are over \$10,000, and "Bad" if total sales are lower than \$10,000.

Furthermore, you will need to create a Region filter, colorize your table by your new Sales Spotlight field, and add Profit to your Tooltip.
